

RISK RATING

RISK REWARD PROFILE

For credit and income instruments, while unlikely, capital loss may occur due to an event like the default of an issuer. The portfolio typically displays higher volatility than a money market portfolio, but lower volatility than a general equity or balanced portfolio. The portfolio is suitable for investors who require specific exposure to the South African bond market as part of their overall investment strategy.

INVESTMENT APPROACH

The appointed investment manager continuously reviews the fund's allocations. Changes to the holdings of the fund are made based on the prevailing economic and market conditions. The investment manager adopts both a top-down and bottom-up approach in developing strategies. A strong emphasis is placed on risk adjusted returns and the probabilities of outcomes as priced in the markets. The fund manager aims to assess the implications of various scenarios on our markets and the pricing of domestic fixed income assets.

Mandatory disclosures:

1. Funds are valued daily at 15:00. Instructions must reach us before 14:00 (12:00 for Nedgroup Money Market Fund) to ensure same day value. Daily prices are available on request from your relationship manager.
2. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Data source: © 2015 Morningstar.
3. Total Expense Ratio (TER), expressed as a percentage of the Fund, relates to expenses incurred in the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs (TC), expressed as a percentage of the Fund, relates to the costs incurred in buying and selling the underlying assets of the Fund. TC are a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund, relates to all investments costs of the Fund. Both the TER and TC of the Fund is calculated on an annualised basis, beginning January 2016 and ending December 2018.
