INVESTMENT APPROACH

This fund is managed on a philosophy of maximizing risk adjusted total return. Property companies whose yield does not adequately compensate for the risk (which includes the company's gearing) are avoided. The investment manager adopts both a top-down and bottom-up approach in developing investment strategies. Particular attention is paid to management incentives, potential conflicts of interest and quality of the direct property portfolio.

PORTFOLIO PROFILE

The investment performance is for illustrative purposes only; the investment performance is calculated by taking the actual fees into account for the amount shown; and income is reinvested on the reinvestment date.

Mandatory disclosures:

1. Funds are valued daily at 15:00. Instructions must reach us before 14:00 (12:00 for Nedgroup Money Market Fund) to ensure same day value. Daily prices are available on request from your relationship manager.
2. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Data source: © 2015 Morningstar.
3. Total Expense Ratio (TER), expressed as a percentage of the Fund, relates to expenses incurred in the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs (TC), expressed as a percentage of the Fund, relates to the costs incurred in buying and selling the underlying assets of the Fund. TC are a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund, relates to all investments costs of the Fund. Both the TER and TC of the Fund is calculated over period of 3 years on an annualised basis, beginning October 2015 and ending September 2018.

Whilst Nedbank Private Wealth offers you a choice of investment services, the underlying funds forming part of Nedbank Private Wealth strategy solution, are managed by Nedgroup Investments. Unit trusts are generally medium to long term investments. The value of your investment may go down as well as up. Past performance is not necessarily a guide to future performance. Nedgroup Investments does not guarantee the performance of your investment and even if forecasts about the expected future performance are included you will carry the investment and market risk, which includes the possibility of losing capital. Unit trusts are traded at ruling prices and can engage in borrowing and scrip lending. Certain unit trust funds may be subject to currency fluctuations due to its international exposure. Nedgroup Investments has the right to close unit trust funds to new investors in order to manage it more efficiently. A fund of funds may only invest in other unit trust funds, that levy their own charges, which could result in a higher fee structure. A schedule of fees and charges and maximum commissions is available on request from Nedgroup Investments. For further additional information on the fund, including but not
