

RISK RATING

RISK REWARD PROFILE

Equity investments are volatile by nature and subject to potential capital loss. Due to its specialist nature, the portfolio will typically display higher volatility than a general equity portfolio. The portfolio is suitable for investors who require specific exposure to small- and mid-cap sector shares as part of their overall investment strategy, with maximum capital appreciation as their primary goal over the long term.

INVESTMENT APPROACH

Stock selection is based on fundamental valuation with the aim of identifying quality companies that will exceed required hurdle rates of return over the medium term. Shorter term opportunities are exploited as and when they arise. Sector and market views are informed through the Nedbank Private Wealth National Strategic Investment Committee's monthly meeting process.

PORTFOLIO PROFILE

The portfolio is suitable for investors seeking exposure to small and medium sized companies in the domestic equity market with maximum capital appreciation as their primary goal over the long term. Investors should have a tolerance for short-term market volatility in order to achieve long-term objectives. The mandate excludes investment in Real Estate shares.

Mandatory disclosures:

1. Funds are valued daily at 15:00. Instructions must reach us before 14:00 (12:00 for Nedgroup Money Market Fund) to ensure same day value. Daily prices are available on request from your relationship manager.
2. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Data source: © 2015 Morningstar.
3. Total Expense Ratio (TER), expressed as a percentage of the Fund, relates to expenses incurred in the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs (TC), expressed as a percentage of the Fund, relates to the costs incurred in buying and selling the underlying assets of the Fund. TC are a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund, relates to all investments costs of the Fund. Both the TER and TC of the Fund is calculated on an annualised basis, beginning October 2016 and ending September 2019.
