## INVESTMENT APPROACH

This fund is managed on a philosophy of maximizing risk adjusted total return. Property companies whose yield does not adequately compensate for the risk (which includes the company's gearing) are avoided. The investment manager adopts both a top-down and bottom-up approach in developing investment strategies. Particular attention is paid to management incentives, potential conflicts of interest and quality of the direct property portfolio.

## PORTFOLIO PROFILE

### Mandatory disclosures:

1. Funds are valued daily at 15:00. Instructions must reach us before 14:00 (12:00 for Nedgroup Money Market Fund) to ensure same day value. Daily prices are available on request from your relationship manager.
2. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Data source: © 2015 Morningstar.
3. Total Expense Ratio (TER), expressed as a percentage of the Fund, relates to expenses incurred in the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs (TC), expressed as a percentage of the Fund, relates to the costs incurred in buying and selling the underlying assets of the Fund. TC are a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund, relates to all investments costs of the Fund. Both the TER and TC of the Fund is calculated on an annualised basis, beginning April 2016 and ending March 2019.
